Introduction

Junior front-end software developer, proficient in HTML, CSS, JavaScript, and Python. I specialise in advanced front-end techniques and offer a strong web and app development foundation. With a decade of experience in the marine industry, I bring excellent communication skills, attention to detail, and a collaborative spirit. Recently equipped with a full-stack software development diploma, I am passionate about leveraging my tech stack to contribute to innovative solutions. Eager to apply my skills and learn from experienced professionals, I am actively seeking a role where I can thrive in the dynamic world of web design and development.

Qualifications

Diploma in Full Stack Software Development
(1 year long course)

Code institute - Dublin, Ireland - University Accredited
by Edinburgh Napier University
